## Budget
A budget is an estimate of income and expenditure over a specific period.

## Government Budget
A government budget is a document presenting the estimated income from taxes and other sources and the estimated spending of government over a specific financial year. In Pakistan the financial year spans between July and June.

## Citizens’ Budget
Citizens’ Budget are designed to present key public finance information to a general audience. They are typically written in accessible language and incorporate visual elements to help non-specialist readers understand the information.

Issuance of citizens’ budget is a rare practice in Pakistan; only very recently have the two provincial governments produced such document. No district governments has ever issued any citizens’ budget at all. This citizens’ budget is the first such document produced in Pakistan at district level.

## Citizens’ Budget by CPDI
Citizens’ Budget is an exhaustive and elaborate exercise. We at CPDI have taken a unique step in preparing Pakistan’s first district centric Citizens’ Budget. CPDI Budget Team extracted data from provincial budget books of the relevant fiscal year. For extraction of data the provincial development budget has been read thoroughly project by project. The projects relating to Ghotki district have been depicted in the Citizens’ Budget 2017-18.

### Why Citizens Must Pay Taxes?

The government requires money to perform its functions and provide services to the citizens. To finance these services government collects taxes and fees from citizens. The government would not be able to provide for law and order, health, education, roads, system of justice, water supply and sanitation and other services if citizens fail to pay their taxes.
